

New regulation for food grade Chondroitin Sulfate

Dear valued visitor,

Up until 2016, Chondroitin Sulfate manufactured as a food product was classified and produced per "Regulation (EC) No 852/2004 OF THE EUROPEAN PARLIAMENT AND THE COUNCIL of 29 April 2004 on the hygiene of foodstuffs".

The commission introduced "Regulation (EU) 2016/355 of 11 March 2016 amending Annex III to Regulation (EC) No 853/2004 of the European Parliament and of the Council as regards the specific requirements for gelatin, collagen and highly refined products of animal origin intended for human consumption".

Chondroitin Sulfate is now specifically mentioned under this regulation.

Due to this change, manufacturers of Chondroitin Sulfate now need to be authorized as food manufacturer in accordance with "Regulation (EC) No 853/2004 OF THE EUROPEAN PARLIAMENT AND THE COUNCIL of 29 April 2004 laying down specific hygiene rules for on the hygiene of foodstuffs".

This approval was given to ZPD on 01.02.2017 based on an inspection performed by the Danish Veterinary and Food Administration. The plant was given authorization no. 6146.
